I have the Gravitation soundtrack but it's getting kind of old so some of the tracks skip. :cry: time to get a new one. :lol:

Gravitation will always hold a special place in my heart because it was the first shonen-ai/yaoi anime I ever saw. I hid in my room and watched it after my parents went to sleep but as soon as Yuki kissed Shuichi I let lose a SQUEE that woke the neighbors. :wink: That's when I knew I was forever hooked on yaoi. :mrgreen:

i love the gravi soundtrack because kinya kiotani (the singing voice of shuichi) is JUST like him! On stage he's all hyper and small and runs around a lot. Check out the video for Sweet Sweet Samba or the live for Spicy Marmalade for evidence.

I heart you Kinya!! *squee*
