
J-Boy Vol. 1 and maybe Vol. 2 too?

I bought J-Boy Vol. 1 several weeks ago, and finally took the initiative to go this morning to Kinokuniya bookstore to see if Vol. 2 came in yet, but it wasn't on the shelves. So I took a copy of Vol. 1 up to the check out counter and asked one of the ladies there, the one that was wearing what looked to be an army issued gas mask, if they would happen to know when Vol. 2 would be coming in. She spent about 10 minutes on a computer, before finally giving up. Then she called the head guy there (either the manager or the owner, she mentioned it, but I forgot) for help. He walked in the front doors a couple minutes later and checked on the computer himself. He said Vol. 2 "wasn't listed" and couldn't tell me anything about it. Don't get me wrong, he and the lady (who was wearing the gas mask that made her sound like darth vader) was very polite and everything, but they couldn't tell me anything about Vol. 2. :((However, on the positive side of things, at least it wasn't a wasted trip. I picked up Vol. 5 of Our Kingdom and got my parking validated! :D)

Anyway, I figured I would ask the good people on the Yaoi-con forum about it...

Does anyone know when J-Boy Vol. 2 comes out? or if J-Boy Vol. 2 is going to be released at all?

Thanks for your help,

~Big-Mac~

By what I read at Junemanga.com, there probably isn't going to be a volume 2. It may be up in the air.
