what kind of girl/guy you're looking for (NOTHING SHALLOW LIKE "I want a hot girl with a huge chest! ><") : I'm looking for someone that is into anime, manga and the Japanese culture, so we can share similar interest and not get bored with one another and understand each other. Someone to possibly cosplay with, or to attend cons with and just hang out with friends and each other with feeling rather comfortable and honest with one another. I would love to be able to trust another person enough to share a part of my life with them. Distance doesn't matter much, as long as effort is put into the relationship.

name a talent you have (KEEP. IT. G. RATED!!!) : I love to draw, sew costumes and plushies and so forth.

a SMALL bio about yourself (try to be specific...dont be like: I grew up in Cleveland, moved to Columbus this past year. I was a Star Wars geek back before I got into anime in my last year of middle school. Started to go to cons back in '02 and have been since. I've been known to be the quiet girl, or the anti-social one back in grade school. I'm still rather quiet around people I do not know well until I grow comfortable around them. I love animals alot as well. I hope to go back to school in fall to study to become a vet technician.

anything else: If you contact me, please say where you are from. I don't like random IM's. I'm generally am online, except at work. I <3 interwebs, roleplaying and my fandoms.

Least Fave Anime: Shin Chan, Bo-bo-bo-bo-bobobo

Contact Info:

MSN - helcent1@hotmail.com

Yahoo - miggieboy@yahoo.com

Talents: I can draw a lil, nothin' special though, I want to learn to sew, because I'd love to get into costume design.

BIO: Born into an army family, I moved around a bit. Though I've only been to three different places, Colorado, Germany, and Texas. Now my family is no longer military, so we are settled in Texas (home). My family is also sarcastic, though in a joking way not a rude way, so I was raised with a bit of a smart-ass. Though if you can get passed the sarcasm, you'll see that I am really a nice guy, and can be a good friend. I also have a bit of an imagination in my mind, so I can come up with some pretty strange ideas.

Anything Else: If you aren't interested in a relationship and you just want to talk or anything, feel free to send me a

message. Also, I mainly use Yahoo, though I'll usually have my MSN signed on in the background anyway.

Given that I'm actually going to be trying to come out of my shell, I guess I should try to work on my interpersonal skills, and doing this shouldn't hurt... :P

name: dunno (And yes, I do respond to this.)

age: *points* That arch over there, 2 days away, says 26. I don't want to go through it, but whenever I run against this conveyor belt, it speeds up on me...

sexual orientation: gay

sex: male... physically. Some would question my mental sex, though...

REAL LOCATION: Virginia. (And might I say even being this close to DC, there's still nothing exciting to do?)

Favorite anime: Marmalade Boy, Gravitation, KareKano

least favorite anime: DBZ, Ninja Scroll

Favorite manga: *blinks* I'd not know where to start. Mars, maybe?

Least favorite manga: Ai Yori Aoshi... and I'm sure there's more, but I can't think of them...

Favorite video game: SNES Final Fantasies (4-6), Dragon Quest series.

Least favorite video game: Fighting and sports games? (But I do enjoy Wii sports...)

what kind of guy you're looking for: A friend first, once I consider you a friend, you're inside my hard shell; should something go beyond that, then it's what will be. Although I do have 5 rigid things that will be mandated should anything go beyond: No smoking (cigs or pot, I'm allergic to both of those), no illegal drug use, no excessive drinking (cup of sake with dinner, fine, getting plastered every Friday night, not so), must at least be tolerant of anime/manga (although that shouldn't really be a problem here), and must have a nice personality. That's not asking for too much, is it?

how we can contact you if interested:

AIM/YIM - dunno001

MSN - insanity_70@hotmail.com (But don't send mail here, I don't check it.)

Also, if you use one of these, please state you're from here, else you're going to see my harsh and cold shell.

talents: I don't think I have any, but I seem to be able to make people happy. And yes, I do try to do that.

bio: Oy... I never was any good at this question. Just... I guess that anime, manga, and yaoi have absorbed my soul?

(But I say it's a good thing!) However, I will do my damndest to help people I consider friends in whatever way I can.

anything else: I... can't introduce myself to save me. However, if there is something you want to ask, feel free to, and I'll probably answer it. There's only 1 question I don't like to answer... and I'll tell you if you hit on it (or something else that for some reason I don't want to answer...)

Even though I am not able to attend...it is always nice to bump into those who share the same interests. I am quite taken..but as I stated..always nice to make a new friend here and there

Now....

Name:Shouin Etienne

Age:32

Sexual orientation:Gay

Gender:Male

Sex:Anatomically female...UNFORTUNATELY. (Probably won't last much longer)

Place of residence:My townhouse...located on Long Island. NY.

Favorite Anime:'Noein' 'Phantom Memory Kurau' 'Le Chevalier' 'Air Gear' 'RG Utena' 'Master Mosquiton The Vampire' 'DN-Angel' 'Shippuuden Naruto' 'Noir' 'BubbleGum Crisis Tokyo 2040' 'Sailor Moon(mainly the Outer Senshi and the Starlights)Fansubbed Yaoi also.

Least favorite Anime:Many. Such as 'One Piece'. Several series placed on CartoonNetwork that ends up chopped and torn to shreds(thanks to editing and other crap). Anything that has a storyline full of chaotic violence with no ACTUAL storyline.

Favorite Manga: Hinako Takanaga. 'Our Everlasting' 'Little Butterfly', 'Challengers' Also...'Thunderbolt Boys Excite'. 'Yellow'. 'The Art of Loving'. 'Embracing Love' Yukou Nitta(sorry if the spelling is off..I'll blame it on the hour of the night).

Favorite Video Game:Not a console player...but I am very good at fighting games. 'Soul Caliber'. 'Tekken' 'Street Fighter'. Heh...I play such roles well...my mentality suits the characters I use.

Least favorite game:As I stated..not a real fan of console playing. I know nothing about FF...so the more I hear or read about it..the more it annoys me.

What kind of guy/girl am I looking for:One that uses the organ under their cranial skull. Basically...friends that I can tolerate and that can tolerate me. Also...I love whom I love...and without a basic understanding of what real passion and friendship is...I would prefer to stay away from anyone who has a hard time comprehending either.

How one can contact me if interested: kaoiahmichiru@gmail.com

AIM:shouin74

Small bio about myself:Well...I am 6'0". Short blue/black hair. Two right eyebrow piercings(I had a bit more than this a year ago). Terribly open-minded. No fears. I do wear glasses and my complexion is pretty translucent. I am very pale. Light sensitive and sensitive skin in general. Not modelesque...but healthy. I have 5 children(non-human)and my points of view can either cause one to run head first into a wall...or listen and smile. I am affectionate and loving. Seriously though...I am. *winks*

Talents: Cellist for 20 years. I had two Novellas printed in an underground zine when I was 16 and the other..when I was 19. Made a small profit off the second one. I tend to understand many and reading people is very easy for me to do. Something along the lines of what Gary Oldman did in the movie 'Leon'. Sniffing out a liar is not a problem for me. I tend to kick ass in D&D. The good ol' days of playing in the backroom of the comic book store in a town called Centereach.

Talents that are not G-Rated....well...I guess that is for the mattress and Horyu

Thanks for reading my prattle. :)

Hopefully, I'll be attending next year unless something dire crops up.

Name: Nanao

Age: 21+

Sexual Orientation: Straight I think..or maybe a little bi tendencies

Gender: Male

Sex: It's overrated, chastity is the way to go.

Location: The city that never sleeps, except when you want the subways to run, NYC

Favorite Anime: Ranma..even though I barely saw any of the series, I have read thousands of pages of Ranma fanfiction. Hellsing, Noir, perhaps a few more, but I'm going senile at my age.

Favorite Manga: Ranma, Naruto, Bleach, Ai Wo Utau yori Ore ni Obero, Pretty Face

Favorite Video Game: RPGs! Well, good ones with interesting storylines, not crappily made ones. Although my favorite one of all time was Final Fantasy 6, which introduced me to the RPG genre. Old Skool all the way!

What kind of girl I'm looking for: Someone who shares similar interests with me, although being on this website does help. However, just chatting is probably one of the best ways to get to know someone. Someone who doesn't judge based on physical appearance and would rather get to know me inside.

How to contact me if interested: Akureichan@gmail.com

A little info about myself: Well, I'm 5'5" with a slim build. Okies, maybe petite build. :D . I was born in the Highlands of Scotland, oh wait, I'm not Duncan Macleod. Rather, I was born in the wilds of Manhattan, NYC.

This is of course, my picture which I had also put up on the page searching for cosplay advice. I enjoy curling up in bed and reading a book, especially when its cold and I'm wrapped in a blanket. In the cold winter season, its perfect for book reading at night. The genres that I enjoy reading are science fiction, mystery, horror, suspense and romance (don't

laugh). I'm a procrastinator who is trying to kick the habit. (Why do it today when you can do it tomorrow?). I'm also goofing off a bit with random acting gigs until school starts again in the fall.

Talent: Wasting people's time by chatting.

Huggles Nanao

Huggles for Akira and Dunno

Okay...firstly...

Dunno...you are an amazing guy. You know enough about me that if I could have one wish..it would be to get all my shit finished and take you out on a date. And no...no microwaving...unless it's the left overs. Heh..

Akira...you are too much! You are not too old...just too obsessed with "twincest". That was freakin awesome babe. Your Myspace comment nearly killed me. I love ya girl!

Nanao...as we BOTH know...sex IS overrated. Whether or not I am getting "it" or (gangsta from our movie last weekend..LOC DOG)"gettin IT"...in the end...eventually things fall into place.

For so long..mindless sex is just that. Mindless..and thoughtless. Also...I think my hand had more of a personality than some dates that I went on in the past. Finding the female orgasm is a bitch. Ha! (Not into dating girls or women).

Making love...I guess when one experiences that...they realize that sex is just a carnal act and nothing more.

If sex makes someone truly happy...then Hell...a lot of people..or humans are missing out.

Yep. Nanao is hot. MINE! Heh..he knows that already. Joking..of course...but we do need to get some sleep babe

~Must keep the schedule on time for Sat's appointment. I can't drive with my eye lids half-way open~

I'm a virgin and damn proud of it! So, no you can't die from a lack of sex. What's with all these young'uns these days? Why, back in my day...wait, what was I talking about? My mind is a bit distracted.

blushes at dunno001's comment Thanks for the compliment. Well, there was one time when I was at an auto accident. The officer was a shorter Latino officer who had the cutest lips and I was a bit distracted watching him write the report. I felt like I could be the Seme and he'd be a nice Uke.

To address a few things:

Hiba, if someone can die from a lack of sex, watch for my obituary, probably coming soon. As for fun, well... it only saps your spirit... I should know, the number of times I have general fun is countable on one hand each year. (Ask the goose over there for times with sex- it'll lay you a nice egg.)

Horyu, the first problem I would see is that you do already have a BF, and my moral code does not like going after people who are already attached. (Second problem would be physical anatomy, with me being an uke and all...) But microwaving, that's an art! Almost anything can be cooked in a microwave if you know how! In fact, I'm thinking of trying to challenge myself this weekend and find something new to cook. I'll see how that goes...

No backseats...so...if you can manage going over 220mph to the max of 280mph in 'Stealth Mode'...wear your seatbelt mate.

Other than that...280mph...in a Veyron...far better than sex.

I missed most of the conversation... but I'll add my input anyways.

I know how ya'll feel with the lack of sex thing, being a virgin and all. Though I just stopped caring about sex, personally. I decided it's not worth it to think about sex too much. If it happens, then that's fine, if not, I am ok with that too. Hell, I'd never have sex at all, if it just meant being with someone I truly love. Love is what's really important to me. :D

As far as dating/relationships go, I've never had a REAL relationship, just a couple little internet things. Though I get bored with those, as it's not fun if you can't touch the person, to hug, hold, cuddle, kiss... That's what gives the relationship it's magic.

And that is my input...

In the rain, eh? Sounds fun... I'll have to remember that one...

What I'm looking for in a Guy/girl: Men that act like boys and boys that act like men. Give them a cherry blossoming resolve and ocean eyes, that would be lovely. They would have to hate ALMOST everything I love and love ALMOST

everything I hate just to show all the beautiful things I'm missing.

Well, I do tend to act younger than I am sometimes. For instance, I will still buy and play with toys; action figures and whatnot. I would still play at a park or playground, tell lame childish jokes, love candy, and really love Halloween so then I can dress up and get free candy! ^-^

As far as hating what you like, and lovin' what you hate... I don't know about that, I like the same anime, and though I've never played a Final Fantasy game, though still do hold my interest.

Talents: Ugh... I like to take photos! Here is my small, yet charming gallery ^__^

I'm a bookworm and I enjoy playing the guitar... I can also suck my own penis... 8) So... I think I'm pretty good at it.

I ain't much of a reader, more of a movie guy/video game guy. I'd love to learn to play guitar, as well as the piano/keyboard and violin/fiddle, though I don't have the patience or attention span to teach myself. And don't know who or where to get lessons, nor am I willing to spend a lot on the lessons.

and finally.... You can do WHAT?! That's not somethin' I expected to ever see in this forum. But it made me laugh. So many guys would love to be able to do that, so many have asked me to do it on webcam, though I cannot.

You rely on an outside PC to reply? PC's are pretty cheap now. Depending on your credit status and finances...I can recommend a site for you to look at. You may find something affordable so that you can have constant reliability instead of having to use an outside source.

If this is not the case...I misread your message

Well...here is the site: www.peachdirect.com

Good luck finding a way to get on the Net more than you have been.

name(or name you will answer to): Roy (not my real name), whoever I'm cosplaying at the moment :o

age: 22

sexual orientation: straight

sex: male

REAL LOCATION: Santa Clara, CA

Favorite anime: Neon Genesis Evangelion, Cardcaptor Sakura, Miyasaki films, Tengen Toppa Gurren-Lagann, Magical Girl Lyrical Nanoha, Gundam

least favorite anime: Um...things with no story/plot/character development and excessive fanservice (don't get me wrong, some is ok, but there's a point where it's just too much)

Favorite manga: Chrno Crusade, YuGiOh, Gundam Ecole du Ciel

Least favorite manga: none at the moment

Favorite video game: Lunar 1 & 2, FF VII, Starcraft, Command & Conquer series, World of Warcraft

Least favorite video game: Can't really say I have any I don't really like at the moment

what kind of girl/guy you're looking for (NOTHING SHALLOW LIKE "I want a hot girl with a huge chest! ><") : Uumm...well I'm looking for an asian girl who has a good sense of humor and a good heart. Since this is on an anime con board, having a love of anime is a given, but liking to cosplay is definitely a plus although not a necessity (if I could cosplay with my girlfriend...*dies*). Oh, and a good, educated head on her shoulder. I also wouldn't mind someone who doesn't mind to cuddle occasionally ^^

name a talent you have (KEEP. IT. G. RATED!!!) : Very lazy fanficton writer (romance/waff type) and I sew my own cosplay ^^

a SMALL bio about yourself (try to be specific): Let's see...I was born and raised in Hawaii (island of Oahu) as the eldest of 3. Currently I stand as a 5'6" asian (Jap/Chin) with dark brown hair and brown eyes with a slim build (finding pants is a pain :lol:). I'm a recent graduate with a BS in Mechanical Engineering starting work soon (as of this post) and am up here in Santa Clara because of the job. I've never had a girlfriend before so you may have to be patient with me ^^;;.

anything else: Well, as the eldest at home, I had all the 'responsibilities' and had to 'set the example' so I can cook, decently organized, and I clean fairly often. Oh, I also HATE smoking...ugh. And I'm not a drinker. Not my thing :wink: .

I'm also a WoW player, but not a highly addicted one, more along the lines of just above casual. If you play WoW, even better :D .

what kind of girl/guy you're looking for (NOTHING SHALLOW LIKE "I want a hot girl with a huge chest! ><") : Probably the hardest question, even I don't know what I'm really looking for but I suppose it'd be someone who is very accepting of people. Someone who likes to talk so I can cuddle up and listen. Basically looking for someone who shares similar interests so we can help each other live life to the fullest.

a SMALL bio about yourself (try to be specific...dont be like: I'm either really quiet or a hyperactive nut. I was born in Canada and at the age of 12 my family moved to Europe for 3 years where I attended an American school which was a real special experience. For example the school had a egg hunt around the city and the winners got to skip an English or Science exam :D They even had opposite day (boys dress like girls and vice versa) and I tell you, sitting in French class in a mini skirt was hard. Currently living in Toronto, I like to spend my time hanging out with friends, playing Dnd, browsing the web, gaming, watching anime, playing sports or DDR / ITG. Studying Psych and English at University and searching for meaning to my life.

anything else: I'm usually really shy at first so just give me time to warm up. Not sure what else to say. If there is anything anyone wants to ask go for it. I'm shy but open if that makes any sense.

Name: John

Age: 24

Sexual Orientation: Bi (or, I suppose perhaps, Pansexual)

Sex: Male

REAL LOCATION: Ohio

Favorite Anime: 'Cowboy Bebop', 'Petshop of Horrors', and 'Here is Greenwood'

Least Favorite Anime: I don't know, even the worst anime is good for mockery. I'm an optimist.

Favorite Manga: 'Berserk', 'Hellsing', 'Ranma 1/2', and 'From Eroica with Love'

Least Favorite Manga: I try to cast anything too bad from my mind, thank you.

Favorite Video Game: 'Shadow Hearts: Covenant', 'Castlevania: Symphony of the Night'

Least Favorite Video Game: Bad idea, or bad execution?

What kind of girl/guy you're looking for: Well personality wise I suppose I d like someone who s intelligent, adventurous, and a bit unconventional. Beyond that it s hard to nail down an exact formula for a compatible personality. Physical characteristics are simpler, someone fit, perhaps built like you would expect from a dancer or gymnast. There s also a bit of a holistic sensibility I tend to follow; some traits I appreciate, but don t think necessarily compliment each other -- others may be admirable, but not a good match with me personally.

Name a talent you have: I m pretty handy with cooking. Also, I can infuse my words with such a level of sarcasm as to render talking completely pointless. Next & I think I ll stop here, actually, because & really, I consider myself a Renaissance man, as such my inclination is to fill this section to the brim completely convincing you gentle readers of my thorough arrogance not that I m humble mind you, but first impressions are important.

Bio: Let s see, I m in the range of 5 8 or 5 9 in regards to height; brown hair, brown eyes and light skin tone. I m fairly fit and exercise regularly. I m in my senior year towards a degree in Aerospace Engineering. Of course knowing the level of hatred I hold for working in an office, I might just pursue something like novel writing or starting my own business once I m

done instead. I m a Midwest con veteran, running and attending, but this will be my first Yaoicon. Perusing through the forums everyone seems open and friendly, so I m looking forward to a great con experience.
Anything else: I generally abhor picking anything as my "favorite", so my choices on the above questions are more about what immediately came to mind rather than anything else. Elsewise & I m a fairly voracious reader, anything I can get my hands on: books, comics, fanfiction (yaoi/general/otherwise), and any other format that presents itself.

A bio about yourself: I was born in Vietnam and came to the states in 1992 with my parents and older brother and soon after my youngest brother plopped out. We were quite poor and in Vietnam we were used to it so it didn't affect us much but for my parents it was tough due to language barriers and having to feed 3 growing boys. I grew up in the ghetto of ghettos, the deep depths of the gang infested, drugs and sex rampant neighborhood where I could wave to corner prostitutes before I head to bed. Parents divorced and you all know what that means! kids begin to grow shells and find their true personalities! Oldest brother was the Quiet one who in 2004 ended his life. I became the Angry one, and my younger brother who brings hope to us all. The gentle one. I left home around 18 and moved down to Southern Cali at 19 where I struggled in restaurants and did hosting on the side. Now I have a career at UCSD as a certified Counselor. There's much more but space is limited! my life is like a book you would read and never think once that it's real. Chuckles...

Anything else: On the side I like to play stocks and CDs. Of course Yaoi and Anime! A passion. I like fast cars, JP imports of course! I drive an RSX but no mods yet "sigh" Oh and I've always enjoyed business..sales & marketing. I am fluent in English, Vietnamese, I speak Japanese and a bit of Korean aswell from past jobs.

Thanks for reading :) see you in the dealer's room!

hey stranger :P

edit: wait....shit...did you used to go by the online name battyhoshi?

Re: Single and Looking? Find other single yaoi fan

Posted by bugangel - 2007/11/09 10:50

Note before I start: I am not strictly "looking for a relationship" right now. I am single, but I kinda dig being that way. One can never have too many friends though...

Name: Ann is fine.

Age: Old enough that it's rude of you to ask. But I don't look my age.

Sexual Orientation: Not quite straight, not quite bi. I like boys an awful, awful, awful lot, but I've been known to date women for extensive periods of time. Anything's possible?

Sex: Externally female. I come with attachments, though. :oops:

REAL LOCATION: Seattle.

Favorite Anime: Trinity Blood, Berserk, NGE, Death Note...

Least Favorite Anime: I hate magical girl stuff and guy/girl or girl/girl *made for hetero guys* rape porn, which I've seen a lot of over the years.

Favorite Manga: Loveless. It's just so... pretty.

Least Favorite Manga: If it sucks, I'm sure not going to pay 9-12 bucks a book for it... and I just straight up do not get a lot of the stuff in Shoujo Beat. "Girl meets boy, boy treats girl like crap, girl angsts about boy, girl becomes mother figure

or little sister to boy, boy is redeemed, they end up together in the closing panels" - WTF? NO!

Favorite Video Game: I love Final Fantasy VIII, and replay it every few years or so. I also love Katamari Damacy. And I love to hate Animal Crossing.

Least Favorite Video Game: Manhunt. Why did someone bother making that crap? Overlord was pretty stupid too - the map system was SHITTY.

What kind of girl/guy you're looking for: Someone fun (hopefully creative or talented in some way, or at least driven... lazy/non productive people and I are ultimately incompatible!) who doesn't feel threatened by my career and interests or my friends. Trust me, harder than it sounds to find someone like that... and impossible to explain the situation to people who don't know what I mean. Age is just a number; tolerance/acceptance is a must.

How we can contact you if interested: PM or AIM me or ping me through Myspace; it's all in my profile - I might not answer AIM right away. I'm pretty busy. Pestering me ("Hi. Hi. Hi. Hi. Poke. Hi. R u there? Why u not responding?") will get you blocked; I don't have time for needy or insecure people either. Sorry! :)

Name a talent you have: My talents are questionable or confusing to me, but ... I can paint in oils and acrylics and actually convince people to purchase them somehow. Weird. I can also sculpt in clay and then cast it in resin. I can identify animal bones by sight (sounds morbid, I know, but I assure you, it's something I learned for a job and that knowledge doesn't go away, and I'm not morbid at all). I can teach mold making and give Photoshop tutorials. I can microwave an egg sunny side up without exploding it all over the place. And I can rip it up at karaoke - Dennis Leary's "Asshole", Tool's "Aenima", and Journey's "Don't Stop Believing" are my signature numbers. LOL.

Bio: 5'6", busty but otherwise thin, former model (_that_ kind, not a runway model, but don't just ask me for pics, it's freaking RUDE; see my Myspace page in sig for pics - not all are safe for work/family friendly), with a bizarre resume that runs all over the entertainment industry, game industry, and dot com hell. I've traveled a lot. But I'm way more humble than all that makes me sound - these things are just true. I'm also a huge nerd; I have an Evangelion tattoo for chrissakes. :)

Yes, it's OK for both guys and girls to add me on Myspace from here, as several of you seem to have already figured out. :)

I'm an omnisexual and I'm socially challenged but I'm not unfriendly, I just don't like to talk. I'm an artist with no passion, a submissive that won't submit, a pervert who hates sex, and an atheist who longs for a god. Fucked up, ne?

anything else:... I LOVE corn...

Horus' Profile Thinger!

Posted by horus-goddess - 2007/11/17 12:25

I'm bored so I thought I'd join in lol. Also I trust this place more than an online dating website. XD

name(or name you will answer to): Marie (Horus)

age: 21

sexual orientation: bi

sex: female

REAL LOCATION: NewHall, California

Favorite anime: FullMetal Alchemist, Digimon (season 1-2), Chrno Crusade... I don't watch a lot of anime really.

least favorite anime: DBZ, Zach Bell

Favorite manga: I only own Chrno Crusade. xD

Least favorite manga: none.

Favorite video game: Kingdom Hearts (1 and 2), Tomb Raider Anniversary, ICO, I could go on forever.

Least favorite video game: Spyro 4: Enter the Dragonfly

what kind of girl/guy you're looking for I'm an uke, so I prefer dominant females/males. However I do like to switch roles in the bedroom. x3 I'm open to taking either role really. I just tend to be more submissive. I love passionate people, caring and considerate of others. I dislike whores. XD Trust is the most important aspect of a relationship for me. I would like the person I'm with to share same or similar interests but it's not required since I love exploring new interests. I try to be as open to things as I can be. Also I'd like my partner to enjoy kinky type of fun in the bedroom. it's almost a must for me because I like it interesting. Handcuffs, restraints, you know. XD I find it really fun and arousing. TMI? Hopefully not since this is the YaoiCon forum! Also important is that I can't stand any kind of illegal drug use (long story)... I also don't

like smoking in general so if you do I'm sorry but it's one thing I can't stand. I do enjoy drinking but, if you're the type who does it all the time I wouldn't be able to take that. Drinking for me is a way to loosen up. I don't do it just to get drunk.

I also want to go into game art and design and someday do character design for a game company. My dream is Square-Enix. Other than art, I also enjoy singing. I've been told I have a pretty voice and am rarely off-key but I need to learn to breathe from my diaphragm rather than my chest hahah. xD

a SMALL bio about yourself: I grew up in Colorado but I moved to California just recently (September 2007). I am currently a freelance illustrator doing commission work over the interwebs. Mostly at deviantART (my deviantART page, if interested). Other than that I'm seeking work. I am rooming with three other girls who are in school right now. I really want to go back to school soon since I'm itching to. XD I am surveying the Art Institute in LA soon and I'm really considering going to that school soon. I will probably move down closer to the school if that's the case though. It's a bit too far since I take public transit (no car yet).

anything else: If you do contact me, let me know you're from the Y-Con forum! otherwise I'll ignore you (or if its e-mail I'll delete it thinking it's junk).

Re: Single and Looking? Find other single yaoi fans here~!

Posted by Kouga - 2008/01/09 20:13

Okay to start off my new laptop sucks for deleting my earlier typing:

Age: 21

Sex: Only if you let me be kinky, and only for special people

Gender: Male

Character: I'm Kouga, Prince of the Wolf Demons, and you better believe it

Location: Dallas Area

Occupation: Full time university student on scholarship, part time tampon shelver and fragrance sales clerk at Albertson's Conventions I hope to attend in 2008: ikkicon (Austin), a-kon (Dallas), animefest (Dallas), onicon (Houston), Yaoicon (San Francisco), and potentially some other cons in San Antonio, El Paso, or Oklahoma.

Political views: Libertarian

Current Dinner: Spam Sandwich with the BBQ sauce I bought in San Francisco.

Favorite Food: STEAK, lots of STEAK. Also Italian, TexMex, Stir-Fry, sesame chicken

Favorite Animes: FLCL, Cowboy Bebop (excellent music), Outlaw Star (more excellent music), Yu Yu Hakusho, FMA, Ghost in the shell, Inuyasha, Hyper Police, Sensitive Pornograph, Neon Genesis Evangelion, Yakataka Japan (sp?)

Favorite Games: SimCity 3000, GTA 3 SAN Andreas, Guitar Hero, Rock Band, DDR, Jack and Daxter, and a few others.

One of the Favorite things about the area of Dallas I live in. I am close to my university, lots of nerds, and my wells Fargo branch representative is also a voice actor for funimation.

My major: Economics (I am so nerdy)

My Appearance: I'm 6 feet tall, black hair, green eyes, and an evil smirk. I average 150 pounds though that varies throughout the year, and my waist size varies between 28 and 30 inches.

My position: I enjoy dominating people, especially after being an Albertson's b**ch all day.

My Personality is: Everywhere. I was raised in a very conservative area of Texas but currently am so inclined to cosplay as nearly anyone anywhere. Kouga, has made appearances in downtown Dallas, JPMorgan Chase tower, suburban malls, as well as other places. At conventions I will drink you under the table while debating economics. I enjoy playing bartender, and have done so with some success at yaoicon and my new years party. Speaking of which, happy new year to all my yaoicon friends.

Dream Job: Tenured Economics Professor or working at Funimation or ADV, so I could cosplay to work either way.

Rare Facts about me: I was in Academic Decathlon 3 years, band 3.5 years, in the Dallas Morning News Twice, in Fort Worth Star Telegram in a blue sequin dress once, have been the number one seller of fragrance in the Texas-Louisiana region at least 3 times now. And am currently eating a spam sandwich (I spend little on food so I can spend it on liquor, anime, and conventions. I spent more on liquor for room parties at yaoicon than I did on my airline ticket to there. I don't get hangovers, not even after experiencing alcohol poisoning. I'm Scots-Irish-German and part native American. Yes, I do have a kilt; yes you may see it. Yes, I am sober right now.

Care to know more about me or better yet, tell me about you:

What I am looking for in a friend: Someone that doesn't stand me up or have me pay for everything. Someone that can put up with a major nerd, that's relaxed and easy going and enjoys yaoi and anime in general. Role Playing is optional. Cosplay is a plus as is location.

What I would look for in either a serious relationship or casual boyfriend: If you cosplay that's a plus, I you are an inuyasha or kurama cosplayer that's a bigger plus, I you're a good one than your automatically at least a friend. I don't deal with backstabbers, or manipulators though. I am kind and taken advantage of easily so I avoid those that like to play mind games. I am very affectionate even towards friends and like them to be likewise though it isn't a requirement. You can be short, you can hate country music (I do after hearing it at work), you can be on the heavier side, just be healthy and happy with yourself. My experience is people that cannot love themselves for who they are can't love me for anything else besides my moderate good looks. I like submissive and not so submissive guys just don't expect me to submit; I am the alpha wolf, I will make exceptions though occasionally. It would be great to have an exercise partner. A good sense of humor helps as well. An open mind is require. Ideally you would be shorter and lighter so I could pick you up. And lastly when I am with you I am with you, no going on about people not a part of the action going on. Smoking ok, drinking ok, vegetarians ok, bi's and not sures ok, manipulators not ok.
