Hi,

I'm trying to find a yaoi paddle as a christmas gift for a friend of mine and have searched every website google has brought up, but have had no success. Would anyone here happen to know a website that sells them? I've already checked ebay and amazon, they dont have any.

They're available through www.hendane.com . They also sell them at any con they go to, however, it seems as though the list of cons they are banned from each year goes up. I've been told he's banned from Yaoi-con, presumably for annoying other dealers by shouting in the Dealers' Room. So it's not hard to find out if he's at a con...

Software

Hi... um, well I'll get straight to the point. ^-^; For a long time, I've been wanting to get some photo editing software because I wanted to edit these great yaoi/shonen ai pics for my friends. But the problem is, I'm dead broke. Do you know of ANY website that will let me download something for free? And not a free trial?

GIMP is the GNU Image Manipulation Program. It is a freely distributed piece of software for such tasks as photo retouching, image composition and image authoring.
