I am curious, how many of you know what Nana Voodoo dolls are? and what do you think of them? Are they appropriate for Yaoi-con?

They are cute!

They are in cosplay!

Compact and portable!

and they can represent a loved one or you're evil ex! \*wink\* evil grin

There will be many more! these are just a few examples.

I just realize they sell those at my work.

I had no idea.

That's \*really\* weird. They make far more sense at a convention dealer table at ANY con then they do in an art museum gift store...
