
Breaking The Ice tabletop romance RP

Anyone else heard of this?

You roleplay through the first three dates of two ordinary people, gay, straight or otherwise. And you have to play a character that's different from you.

Made by the awesome Emily Care Boss, who was sick of guys telling her "but I can't play a girl in D&D!"

I'm bringing it to Yaoicon. Anyone want to play?

Sounds similiar to the on computer RPG's that some friends and I do since we're a few states apart. ^_^ But if my friend that may dress as Shuichi doesnt drag me off hope to see ya at 07.
