Posted by hibaakaiko - 2006/05/02 18:36

It is a fanbased Full Metal alchemist game made in China...it is no longer for sale....and it is VERY VERY rare...~DIES~
But the cg on it is amazing...if anyone knows where I could get a copy of the game/ or the script for the game so I can
read the story line....and or pictures FROM the game, I'll be forever greartful!

Sounds interesting. I'll look in to getting it. (No promises, of course.) If I can, I'll post my success here.

There's no need to thank me yet... I haven't found more than little mentions of it as of yet. I'll keep looking, though.

lol What fun is it if you force 'em? Everything is hotter when it's tempting. ;)

That's okay, just knowing that you're kind enough to try to find it for me makes me happy ^^

Y'know... I think that's the sweetest thing that you've ever said to me. Well... except for how you made an exception for me back when we met.

Thank you. That just made my day. ^_^

Y'know... I think if you were just happy or just hyper or just upset for a full day straight, the world might stop spinning and throw us all off. ;)

Not with a photographic memory. Chinese's grammar is SIMPLE compared to japanese. All you really need to know is the characters and a bit of guessing. Trust me...I do it all the time...I'm not saying I'm able to read and write Chinese and speak it like an expert....but....~Shrugs~ I can read some things on my own.

Hopefully I'm not stepping on anyone's tail here, but I did find a few things. I'm assuming that by your mention of reading the walkthrough, that it's the one at <http://midnightbanshee.livejournal.com/16962.html> ? (That link is to day 2, but it links to day 1 also.) There's also an MSN Group that has some pictures from it; the first couple of wallpapers are from the opening, which Google has in its video section. I also found a complete set of the BGM for the game, but I can't get that yet. -_-
