
Livejournal Yaoi community...

I'm helping out a friend who started up a Yaoi scanlation sharing/posting community and is currently accepting new members. It's still a small community but it's growing! It's been lots of fun sharing stuff. Check it out and join us! Post scanlations or just chat about your favorites!

This is also another pimping I did while at Yaoicon so let's share/spread the B/L love!

ADMIN: Due to concerns about the legality of posting links to scanlation and fansub sites, the convention has decided to disallow such link posting. To this end, this post has been amended and the link was deleted. Thank you.
