
Ouran Twincest AMV(Baby Please Don't leave me)

Hello all I am a newbie to this site-and one day hopefully the con- I found this awesome Ouran doujin and so I made this amv/mmv about it. I would really appreciate it if you tell me what you all think. I made this just for fun, so the editing isn't anything to fancy.

Thanks all.

EDIT: It wasn't working on Youtube they said it was a server problem so I removed it and well it got removed from Motinto and my account got deleted. I got an email where they asked me not to upload illegal stuff...so um maybe it's a little to much for them? Though really there is no graphic stuff it's just kissing-how is kissing graphic? EDIT: I just heard back from them and they deleted my account because I had the word Incest in my tag line. okay weird. End of Edit.

Anyways I only have it on Megaupload. I would really appreciate any comments from you guys on how graphic you think it is. I do not want to get banned from other sites if I post it there when I thought it wasn't graphic to begin with.

So yes I guess this deserves a warning. Twincest/ twin kissing/twin's in the shower kissing- you don't see anything really just them kissing, and their backs, shoulders, etc. You don't see nothing that we would consider nudity. So yeah thanks all.

Hey, I haven't watched it yet, but there's this awesome site where you can upload videos and you won't get in trouble because of the tag Incest. XDD After my YouTube account got deleted I didn't bother uploading anything else. The site is www.VEOH.com There's no limit on the size of the file so it's really good. And it's a safe site as well. ^_^.
