## Open Triple/Quad Room

Posted by badluck\_fangrrl - 2008/03/15 20:51

---

Alright so when I booked my room it was telling me there weren't any suites available so to make sure I got a room no matter what I booked one of the triple/quad rooms. Turns out it was that glitch in the system Marriott fixed so I got my room suite a few days later.

But I now have both rooms reserved in my name and only need the suite. I figured I'd see if anyone here wants to take over the triple/quad before I just cancel it. :)

It's booked from thursday to monday, please pm me if you're interested.

Turns out the people it was on hold for don't need it so this room is available. ^^

---

Since the reservation is for 4 nights the price quoted to me by the Marriot including taxes and fees is \$528 for the whole stay. So it'd be about \$176 per person if there's 3 of you. Unless you wanna find a couple more people to room with you or change the reservation so that it's less nights.

alright, well there are 2 options now. either you guys can just give me the money for the room and keep it in my name or I can send you guys the info to change the reservation so that's it's in your name and reserved on your card. just let me know which you prefer and I'll pm you the info. ^\_\_\_\_^

hey

if its no trouble would you be able to check and see if the changes i made to the room have actually changed. for me please.

It looks like the card number was changed correctly but it still has my name on it. Did you change the part of the reservation that said guest information?
