hey all!

we've got some great and unique items up for sale on etsy right now--stuff we usually only bring to conventions, or things we've only ever make one or two of because they were neat, or experimental.

for example, some pretty neat shonen-ai jewelry, tote bags and lettersets...

and since nights can get chilly & lonely, why not stop by our shop to pick up and oversized raglan sleep shirt...? who says you need a reason to snuggle down with our adorable demi-furs for company...? ~\_^

sleep tight, kits-n-kats.
