I have a Yaoi Gallery name of Turquoistar...(Anyone see that coming) I was just wondering if anyone else had a Y account. I post my FFVIII Fan fiction there...and I'm in the middle of writing more.

You can never have to much love.....

If for some reason you don't know what Y Gallery is

Man, I'm going to get an account...unless they're hitleresque like DA << they took my shit down 'cuase "You can't use other's art" Yeah, I KNOW what a copy write law is, but I took five pictures and have very little of each in the picture OO I completely CHANGED it, people are selling pictures out there for millions of dollars with way less changed to copy written material than I had!

The only thing y!gallery frowns on really is anthro-furry art, citing that their main focus is the yaoi itself as well as there being a number of other gallery sites that focus specifically on anthro-furry art. Might want to give the ToS a look-see to find out precisely what the line is on using other copyrighted works in your own though if that's what worries you about them. :)

Huh...<< I need a bigger scanner because the size of standard Manga paper is two times the size of a regular piece of paper, not to mention...my scanner doesn't work with Windows vista <<

The cheapest large format scanner I've seen was about 300 dollars. Not too cost effective unless you're already a pro.

Well I'm an art major, if I REALLY want to, I can go to the school and use their computer lab and do all kinds things for free. Altho...for what I'm doing in school....a three hundred dollar scanner isn't THAT bad
