In theory, I'll have Maito, Konoe and Fai with me, though that's far from certain. Ritsuka's my back-up if any don't happen

Jo! I have a cosplay already planned out for you!!! It will require red contacts lenses and body paint, but if we are entering into a skit this year you must do it!!!

Oh and fake nails... among other stuff...

I have too many cosplays planned it was only a few days after Yaoicon 07 that I started coming up with them. Ever seen cosplays of cosplays? I'm going to be Sasuke doing Ritsuka and my friend is Kakashi doing Soubi!
SQUEEEEEEEEEEEEEEE! Prolly do Akira and Hikaru again since my friend wants us to wear goofy signs. All the other stuff is just silly things since this year it won't just be any normal outfits... just anime characters in their undergarments! I so want to come back already! x_x

Utterly fantastic, thank you :D

I'll have a look into bringing it along, then, but I'm sure you can imagine the wig (which requires its own separate and rather large box) is a pain in the rear to transport! Customs and airport security really don't like it either >.>; Thinking about it, some airlines would charge me for it as an extra item too...

I'll see if it can be done, anyway! ^_^

I'm glad you're doing Camus- I'll be doing Meine Liebe, as well. My plans are, at this time, as such:

Friday:

Yasuaki (Haruka)

Fai (Tsubasa)

Cyon (Wild Fangs)

Saturday:

Ludwig (Meine Liebe)

Raphael (Angel Sanctuary)

Aya or Chloe (Weiss Side B)

Sunday:

Maki (Cafe Kichijoji De)

I'm also bringing a couple of old costumes that I really don't think I'll have time to wear (unless something above falls through). Tomonori, Soubi, and Rufus are my main back-up duds.

Is there anyone who will be available for a photoshoot on Thursday? Especially Meine Liebe? I don't want to fly in early unless I can meet up with some folks. I'll be going solo for this Y-Con...

Seconded! I start getting a little nervy if my cosplays aren't ready two months in advance, and start freaking out when the con reaches one month away ^^;

That said, that may be a strong counter-reaction to past experience, when half my outfit arrived literally a day or two before I had to fly out... ^^; Not cool!

I think i'm more worried about getting SOMETHING done for Fanime first :P . Then hopefully after that I won't be as lazy and finish up whatever I didn't get done for Fanime (bought fabric for 3 cosplays :blink: . I still have no idea why...). For Yaoi Con...I'll of course be brining my Colonel Roy Mustang (wouldn't be Bishie Roy without it B)). The others...If I can get my Kurogane (TRC) updated I might bring it...or maybe Commander-in-Chief Simon (TTGL), Chrono (Nanoha), or a Zeon 603 engineer (MS Igloo). I also have Kyon (Haruhi) in my closet. Man...too many to choose from :pinch:

Alright a few changes in the last month or so, but here's what I'm currently planning:

Sayonara Zetsubou Sensei - Kei Itoshiki (w/ a Nozomu)
Romancing Saga - Gray (w/ group)
One Piece - human Brooke (w/ Captain Yorke)
Samurai Champloo - Mugen (w/ Jin)
Fairy Tail - Gray Fullbuster (w/group)

I was pretty damn excited to see, in an above post, that there will be another SZS cosplayer. XD

- ~Xemnas: KH2
- ~Xehanort: KH2
- ~Vexen: KH CoM
- ~Even: KH CoM/KH2
- ~Kimimaro: Naruto
- ~Sasori: Naruto (Huge maybe on this one.)

Basically, which ever ones I get done this summer.

I don't want to get into wigs yet (this'll be my first time actually making the costume, not just piecing together already owned clothing), so my cosplays are centered on characters with long curly hair (because I can use copious amounts of colour-hairspray).

- Tira Misu (both overcoat and battle outfit) - Sorcerer Hunters
- Quon (first few episodes outfit) - RahXephon
- Barry the Chopper (when in drag) - Fullmetal Alchemist

And possibly Kodachi Kuno from Ranma 1/2... 'Cause she's nutso. :D But this one would be if I didn't get either Quon or Tira finished.

Seeing as this is only gonna be my second official cosplay, the unofficial being Misa from Death Note for the two days it played in theaters, I'll be going as non-anime character White Spy of Spy vs Spy. I'm sad I have no Black Spy to cosplay with, but I'm very happy I get to cosplay as White Spy at all. This is what happens when you find a nice inexpensive white jacket that begged to be bought for cosplay. Latex, I love it. I may mooch a sewing machine and make my Naruto pajamas and go as Naruto in his pj's also. Heck, if I've got the free time I might make a new Naruto cosplay. So, the list is
White Spy
Naruto in his pajamas
Or just plain Naruto, pre time-skip or post if I make a new outfit.
